

### THE ALDERMEN NOT IN IT

CAN'T HOLD UP WEST STREET TROLLEY FRANCHISE.

That's a Matter for Property Holders and Three Different Kinds of Commissioners to Decide-McDougail Hawkes a Little Menacing About It.

Since it has become known that the Metropolitan company is seeking the permission of property owners to run cars by overhead trolley through West street there has been some talk as to whether such a change of motive power would make it necessary for the company to go through the same process as would be required in the case of a new franchise. Little Tim Sullivan was quoted yesterday as saying that before the company could carry through the project the consent of the Aldermen would have to be obtained.

The Aldermen have nothing to do with the matter. The company owns a franchise for the operation of a line of street cars along West street, and in order to change its motive power from horses to electricity it is necessary to obtain the consent of the abutting property owners and then to abutting property owners and then to get the consent of the Commissioner of Water Supply, Gas and Electricity to string the wires. The company will need also the consent of the Department of Highways for the opening of the street for poles and to lay heavier tracks.

The permission of the Dock Commissioner to run branches into the ferry approaches will have to be obtained.

Dock Commissioner Hawkes said yes.

I shall make the plan public when I get it—if I get it. I should not be surprised if I did not get it. If the Metropolitan company must prove to me beyond a shadow of a doubt that the underground system is impracticable, and then, before I would grant the consent to a change in the power of the line, I should have to know that the before I would can be of the city demanded this change before I would eity demanded this change before I would

#### SCRAP OVER CITY PRINTING. Last Minute Bidders Let in Over Hervey's

Head-Brown Up With a Protest. The Board of City Record opened bids yesterday for the departmental printing for next year. The contract is worth more than \$100,000, but as the offers were upon detailed specifications the proposals will have to be tabulated before an award can

be made.

A protest was filed with the board by the Martin B. Brown Company against and requested that they be married at awarding the contract, or any part of it, to Thomas B. Sidebotham, Jr., the successful hidder for this year's work, on the ground that he had defaulted on the furnishing of a number of items he had contracted to supply to the departments and that the Charter prohibited contractors who were in arrears with work from competing for new contracts. The board reserved de-cision on the protest until after the bids had been tabulated.

One of the bidders was the Metropolitan Printing Company. Supervisor Hervey refused to accept the offer of this concern without the consent of the board, because as he explained, the bid had been submitted half a minute after the advertised closing time for the receipt of proposals. G. H. Tooker, the manager of the company, was on his feet in a moment.

"Gentlemen, that is not so," he exclaimed.

"I can prove by my watch, which is set to Western Union time, that Mr. Hervey's clock was a minute and a half fast and that our bid was presented in time." our bid was presented in time. "I can also show that our clock was right,

retorted Mr. Hervey; "and I told Mr. Tooker that I would refuse his bid, but would leave the board to decide the matter."

The board decided to admit the Metropolitan company's bid.

#### CAUSE OF WOMEN'S DEATH. Irritant Poison Killed Mrs. Cusick and Mrs. Ward, the Autopsy Shows.

Coroner's Physician Higgins made a autopsy yesterday on the bodies of Mrs Mary Cusick and Mrs. Julia Ward, who died at their home, 172 Perry street, on Thursday afternoon. Dr. Higgins found that they died from gastro-enteritis, caused

some irritant poision. Dr. Higgins said the organs would be submitted to a chemical analysis to determine the exact nature of the poison which caused

the women's deaths.

"The women," said Dr. Higgins, "may have died from ptomaine poisoning due to eating unwholesome food. I cannot tell what the nature of the poison is until the chemical analysis has been made. proner Goldenkranz said he would hold an inquest next week.

Brooklynites May Smoke on Rear Platforms General Manager Calderwood of the Brooklyn Rapid Transit Company announced yesterday that the company had decided to revoke the rule which has been in force a couple of years prohibiting smoking on the rear platforms of closed cars. smoking on the rear platforms of closed cars. The rule was adopted as it was regarded that smoking on the platforms would be offensive to many passengers and contribute to the overcrowding of that part of the car. The platforms, however, it has been found, cannot be more overcrowded, smoking or no smoking, and the officials concluded that if there must be crowding there might as well be smoking. It is also admitted that the rule had almost become a dead letter.

DRUNK WHEN MARRIED, SHE SAYS Mrs. Hanify Now Sues to Have the Ceremony Declared Vold.

Mrs. Myrtle B. Hanify of 153 West Fifteenth street has Supreme Court to have her marriage to Joseph F. Hanify annulled on the ground that when the ceremony was performed she was so much under the influence of liquor that she did not know what she was doing.

The ceremony was performed on Jan 9, 1902, by the Rev. Robert Bagnell of the Metropolitan Temple, at about 2 o'clock in the morning. Mr. Bagnell testified before Justice Truax yesterday that the couple called him out of bed on the morning question, accompanied by Henry W. McCord, an instructor of physical culture, once. Mr. Bagnell says that he noticed once. Mr. Bagnell says that he noticed an odor of liquor but thought that it came from McCord. As far as he could see, the clergyman testified, both the principals were fairly sober. They answered all the questions put to them quietly and rationally.

Mrs. Hanify testified that she had never seen her husband either before or since the night they were married. She drank cocktails, she said, for the first time in her life that night, and remembers nothing after the second drink until she awoke

This was generally regarded as not of sufficient size to furnish the required space underground for printing and press rooms. It is now assumed that the old hotel plot will be improved with a low structure preserving the outlook over the Grand Circle for the proposed main building. Mr. Hearst's broker, Leopold Weil, ad-mitted vesterday that negotiations were mitted yesterday that negotiations were pending for the larger block. It is understood that a price has been agreed upon. This, according to report, is about \$1,200,000. The property cost the United States Realty about \$900,000.
